SISSEL® Worldwide a Passion for Healthcare and Wellness Products

It all started with a neck pillow ...

The anatomically shaped SISSEL neck pillow was originally created in 1986 and quickly attracted the interest of professionals in therapy, nursing and rehabilitation. Clinical studies also showed that the pillow had a positive effect on vertebrae and intervertebral discs. To this day, this anatomical, effective shape has stood the test of time and has since formed the basis of our corporate philosophy 'The natural way'. The unique shape of the original neck pillow is still reflected in the SISSEL logo today. Under the visionary leadership of the two Managing Directors, Jens and Lars Friebel, the SISSEL portfolio has expanded into a diverse, health-oriented product range with the following product areas:

Healthy Moving

04

Keeping fit means staying in motion. Our products in the Healthy Moving category support an active lifestyle - especially the well-known SPINEFITTER by SISSEL

Healthy Sitting

Nowadays, we spend most of our day sitting - which is associated with a host of problems and discomforts. With our Healthy Sitting products, we offer effective solutions for better posture and well-being - like the SISSEL SITFIT.

Well-Beina

Treatment with heat, cold, massage - or simply relaxation. Well-being is our passion.

Healthy Sleeping

Healthy sleep is the basis for well-being in everyday life. We have a variety of products that are suitable for promoting a restful night's sleep - including our original neck pillow.

Many of our innovations have since become classics. Innovations like the SPINEFITTER by SISSEL is currently attracting a lot of attention in the health and fitness industry worldwide. Thanks to our international partners, SISSEL is now available in over 70 countries.

Our customers

Healthcare professionals all around the world love to work with our product range. Physiotherapists, doctors, trainers and coaches rely on the quality and performance of 'Made by SISSEL' in their daily work. We therefore offer customised solutions for every field of application.

SISSEL - proven quality since 1986

The SISSEL brand stands for exceptional quality and customer satisfaction. Every product in our health range is selected and manufactured to the highest quality standards.

Continuous innovation in terms of product development, production processes and technologies, material selection as well as a focus on sustainability and social responsibility are cornerstones of our company.

· Production mainly in Europe (especially in Sweden and Germany) Quality management system certified according to DIN EN ISO 13485:2021

SISSEL - The natural way

Our ambition is to support the health of customers in a natural way. SISSEL offers a diverse range of high-quality products that strengthen health and well-being.

Sustainability

THT MOVING

HEALTHY SLEEPING

Sustainability and climate protection are at the top of our agenda. By converting our packaging materials and gradually replacing our packaging with climate-friendly natural cardboard, we are taking an important step in the right direction.

5 years SISSEL guarantee

You can rely on SISSEL quality. That's why we give a 5-year guarantee on the shape stability of all orthopaedic SISSEL neck pillows, SISSEL Soft Curve, SISSEL Buchi Soft, SISSEL Medi Support, SISSEL Sit Special 2 in 1, SISSEL Sit Ring and SISSEL Back.

At SISSEL, we place the highest value on sustainability

Our new product packaging is a milestone in terms of resource conservation. The new design is characterised by clarity with Scandinavian flair and a focus on the essentials.

- Climate-neutral natural cardboard (CO₂ neutral)
- Reduced use of colours (use of only one imprint colour)
- Packaging from responsible sources (FSC certification)
- No outer carton required (the packaging is suitable for direct shipping)
- Stylised application illustration on the front

SISSEL ACADEMY

The SISSEL ACADEMY was founded a decade ago and stands for first-class international fitness and rehabilitation educational programmes led by a global community of experienced Educators.

As Head of SISSEL ACADEMY, Nina Metternich devotes her time to establishing and developing the academy on an international level. Thanks to her many years of experience in therapy practice and further training, Nina Metternich can draw on in-depth knowledge from the fields of physiotherapy, osteopathy, and Pilates. This enables her to ensure that the trainers are educated at the highest level.

The academy's mission is to support the high-quality training of future Educators and to create exciting and purposeful new workshops for the fitness and health industry of tomorrow. The SISSEL ACADEMY offers high quality workshops in a stimulating and professional environment. The SISSEL ACADEMY workshops permit attendees to dive deeper into the anatomical correlations and core principles of the selected SISSEL product and includes exercise programmes to support individual and group training and rehabilitation. The courses contain a strong focus on practice-based knowledge, thus allowing specialists to directly implement their newly gained knowledge from the workshop in their personal training or therapy practice.

Each workshop includes a detailed workbook that can be used as a manual for professionals in their daily work. After successfully completing the workshop professionals will receive a SISSEL ACADEMY Certificate.

Deepen your skill set and get inspired by our dedicated workshop formats centred around the SPINEFITTER by SISSEL and brand new SISSEL product developments. Become part of our growing community of highly educated trainers and specialists.

We look forward to welcoming you to the SISSEL ACADEMY.

Back in Balance

Comprehensive back training – exercises with the SPINEFITTER by SISSEL

This 4-hour workshop 'Certified Professional Instructor' is designed specifically for physiotherapists, medical practitioners, and trainers.

In this workshop, we will show you the exercises for the relevant indications, explain them in their overall context and present exercise programmes. The workshop also covers anatomical principles, pathologies and possible solutions, as well as instructions for your patients or participants.

The SISSEL ACADEMY stands for first-class international fitness and rehabilitation educational programmes run by a global network of experienced Educators.

Based on the medical studies that are currently being conducted and the experience we have gained, new workshop formats will be released in 2025.

Professional workshop:

Professional workshop: Functional training of the myofascial chains

Exercises with the SISSEL OCTOCORE

This 6-hour workshop 'Certified Professional Instructor' is designed specifically for physiotherapists, medical practitioners, and trainers. It focuses on training of functional muscle chains and addressing myofascial pathways.

The workshop covers of a variety of training that enables you to address the whole body with every exercise and compensate for deficits. The innovative approach enables functional training that offers your participants new training stimuli.

SPINEFITTER[®] by SISSEL[®] System

000

u can find more information at spinefitter.com.

An Innovation by SISSEL®

An innovative, modular system for maximum application possibilities

Versatile and impactful training

The SPINEFITTER by SISSEL System was developed by an interdisciplinary team of physiotherapists, osteopaths and Pilates trainers. Numerous exercises from the fields of Pilates and Yoga can be combined and supplemented with the SPINEFITTER by SISSEL. Twelve exercise videos available online show the versatility and potential of regular training with the SPINEFITTER. The SPINEFITTER loosens muscular tension, mobilises joints, and strengthens deep muscles. Thanks to targeted exercises, the SPINEFITTER helps to relieve pain effectively in the back, neck and shoulder areas*.

The SPINEFITTER is made of PU integral foam and thanks to its unique shape, consisting of a 28 double-row ball structure, the SPINEFITTER by SISSEL enables comprehensive back training. The modular design of the system makes it easy to attach various add-ons and thanks to its excellent connection options, this effective training tool becomes a valuable treatment and relaxation aid. Versatile exercise options allow to train safely and effectively in the physiotherapy practice, studio and at home.

Discover the SPINEFITTER System and learn why this multi-tool has quickly become a professional asset in the physiotherapy practices and self-treatment at home.

*You can download the study abstract via spinefitter.com

SPINEFITTER by SISSEL Linum & Linum Pro The perfectly fitting SPINEFITTER cover with natural linseed filling can be used for heat application on the SPINEFITTER and comes in two versions: for use at home or professional application.

The SPINEFITTER[®] product family is growing: **SPINEFITTER®** by SISSEL[®] Junior – available soon!

SPINEFITTER by SISSEL Trigger Tool

The attachable module offers a simple way to autonomically release trigger points and hardenings along the spine most precisely, and, thus, contribute to pain relief.

Tip: Can also be combined with the SPINEFITTER Mini.

SPINEFITTER by SISSEL Extension Kit

Expands the range of exercises and is perfect for people taller than 180 cm. Consists of the SPINEFITTER by SISSEL Mini and a Connector. The simple click system ensures a correct alignment of the Extension Kit.

SPINEFITTER® by SISSEL®

The innovation for a healthy back

Thanks to its unique design the SPINEFITTER by SISSEL enables comprehensive back training. The paired ball structure enables the spinous processes to sink in, which, even in a simple supine position, achieves a positive effect on the muscular tissue adjacent to the spinal column. The small vertebral joints can be opened and, thus, one's mobility can be improved. The SPINEIFITTER is an intuitive training device and can be used for exercises from the area of spinal gymnastics, Pilates and Yoga. New stimuli are set through easier joint positions and challenging motions (balance). Intuitive handling and a quickly noticeable effect make the SPINEFITTER an ideal piece of equipment for regular training in the Pilates or fitness studio, in therapy or at home.

- Innovative training device with 28 interconnected balls
- Intense, deep-impact pressure across the entire muscular and fascial tissue along the spine
- Improves joint mobility

12

- Strengthens deep muscular tissue

SPINEFITTER® by SISSEL® Trigger Tool

Attachable module for expanding the SPINEFITTER by SISSEL System

It allows targeted, punctual pressure to be applied to trigger points, hardenings, and tensions. Consequently, the module offers a simple way to autonomically release trigger points and hardenings along the spine most precisely and, thus, contribute to pain relief. The shape of the Trigger Tool ensures symmetrical, constant pressure with the surface area of a therapeutic thumb. This allows pain points to be specifically released, blood circulation to be increased and the muscles to work evenly again.

- Pain reduction of trigger points
- Shape ensures a symmetrical, constant pressure
- Individual placement
- Optimum degree of hardness*
- Vary and regulate the intensity of the pressure using your own body weight
- Weight product: approx. 55 g
- Maximum user weight: 150 kg

approx. 12 x 4.5 x 7 cm

polyurethane

are targeted effectively yet as gently as possible

SPINEFITTER® by SISSEL® Extension Kit

Expand the SPINEFITTER by SISSEL with four additional balls and the ideal connecting piece to achieve a greater variety of exercises. Set new stimuli and support specific areas of the body to optimise your self-treatment even more precisely. The Extension Kit can support specific areas of the body in order to train in a more targeted and controlled manner.

- Extends the regular SPINEFITTER by SISSEL by 12 cm (2 pairs of balls)
- Contains: 1 x SPINEFITTER by SISSEL Mini and 1 x Connector
- Expands the range of exercises
- Perfect for people taller than 180 cm
- Simple click system ensures correct alignment of the Extension Kit

SPINEFITTER by SISSEL Mini

- Extra small and light perfect for traveling, in the office, or on the go
- Supports segmental spine mobilisation exercises
- Perfect for fascia release of individual areas
- Suitable for balance exercises and for strengthening of deep muscle structures
- Also available individually, without connector, incl. SPINEFITTER carrying strap Can be combined with the SPINEFITTER
- by SISSEL Trigger Tool

SPINEFITTER® by SISSEL® Linum & Linum Pro

The custom-fit SPINEFITTER cover with natural linseed filling can be used for heat application on the SPINEFITTER. The Linum/Linum Pro provides natural warmth along the entire spine and is ideal for relaxation, for loosening up the muscles before or after training, or for relieving pressure on the paravertebral muscles when training with the SPINEFITTER. Using the Linum/Linum Pro increases blood circulation along the spine and thus relieves pain.

- For heat application
- Ideal for relaxation or loosening up the muscles
- Filling: natural linseed filling
- $\boldsymbol{\cdot}$ Can be combined with the SPINEFITTER by SISSEL and Extension Kit

SPINEFITTER by SISSEL Linum Pro

• specially developed for use in physiotherapy practices, Pilates and fitness studios - thanks to the wipeable and disinfectable surface

> The hook-and-loop fasteners enable the simple insertion of the SPINEFITTER by SISSEL and the optional Extension Kit

approx. 84 x12 x 2 cm

Linum: 100% cotton Linum Pro: 100% polyester / PU coating

SPINEFITTER[®] by SISSEL[®] Accessories

SPINEFITTER[®] by SISSEL[®] Backpack

- The backpack for transporting a SPINEFITTER incl. a mounted SPINEFITTER Linum/Linum Pro
- Backpack made of 100% cotton
- Colour: anthrazit

SPINEFITTER® by SISSEL® Coach Bag

- Matching carrying bag for 10 SPINEFITTER by SISSEL
- $\boldsymbol{\cdot}$ Enables easy transport of the entire training equipment
- Dimensions: approx. 95 x 44 x 30 cm (when filled)

Pilates Matwork

Pilates - Body & Mind Training

The secret of the method is its holistic approach with multiple positive effects on body and mind: Pilates improves flexibility, strength, endurance and mental balance. Pilates matwork, is the most well-known facet of Pilates training. Joseph Pilates (1883-1967), the founder of the legendary Pilates method, developed countless gentle yet very effective exercises, which can be practiced on a mat. In addition, depending on the level of difficulty desired, small props such as balls or rollers can be used to modify the

SISSEL[®] Pilates Circle

fiberglass, ABS plastic handles, EVA foam padding, NBR rubber

SISSEL[®] Pilates Core Trainer

All-round tool for an effective core workout

- Use to strengthen back, arm and leg musculature
- For a targeted shaping of individual problem zones
- Suitable for fitness, aerobics and therapy
- With four loops for simultaneous training of arms and legs
- With high-quality hygienic handles for a safe grip and easy handling
- Medium strength for effective resistance training

approx. 60 x 60 x 2.8 cm

exercises. Pilates matwork can easily be practiced at home. In addition, many gyms and physiotherapy practices have integrated the training method and offer Pilates matwork as personal training or group classes.

'After 10 sessions you'll notice a difference, after 20 others will notice, after 30 you'll have a whole new body.' Joseph Pilates

SISSEL[®] Pilates Roller

The SISSEL Pilates Rollers ideally complement Pilates mat training, especially for balance and stabilisation exercises. They also offer effective ways of loosening fascia tissue on every training level.

SISSEL® Hang Up

The inversion table for home and professional use

- Increasing stress on musculature, joints and the spinal column caused by physical activities, like sports, excessive workouts, bending, lifting, long sitting or standing lead to compression and rotation pressure and are often the reason for complaints
- The reversed strain during exercises with the inversion table automatically creates a relief
- Eases tensions, contributing to a sustainable pain relief
 Enhances blood circulation
- · Enhances blood en cutation
- $\boldsymbol{\cdot}$ Can also be used for athletic workouts, such as sit-ups
- Fast set up, space-saving storageThe compact inversion table
- Suitable for body heights of approx. 1.40 m up to 1.98 m
- Maximum height approx. 2.05 m to 2.09 m (with maximum body height adjustment)
- Max. body weight: approx. 110 kg

Inversion for back problems A full or partial inversion stretches the back naturally, enabling the spine and weight-bearing joints to relax and recuperate. The stretching is determined by the body's own weight and is therefore automatically customized.

SISSEL[®] Orthopedic Pillows

The shape, quality and design, tried and tested for over 35 years

All SISSEL Orthopedic Pillows provide specific support for the lower cervical spine. The whole shoulder and neck area is supported. The pillow's unique tapering between the shoulder and spine fills the space between them and gently moves the spine into an anatomical-ly correct position. The slight stretching feeling in the neck and spine can initially feel unusual as the body needs a little time (2 to 14 nights) to re-adjust to a natural healthy sleep and become used to lying on an original, anatomically shaped SISSEL Orthopedic Pillow.

The SISSEL Classic and Classic Plus are made of polyurethane foam which has a high support factor. The SISSEL Soft, Soft Plus, Soft Deluxe and Soft Bambini are made of visco-elastic foam which is much softer. All the pillows are hand washable. More benefits can be found in the detailed product descriptions.

The unique tapering in all SISSEL Orthopedic Pillows guarantees that the shoulder is positioned so that the spine and the intervertebral discs are supported

A conventional pillow does not provide enough support for the neck and cervical vertebrae.

The SISSEL Orthopedic Pillow provides perfect support for the neck, no matter how you lie.

Scientific background: neck problems and transferred neck pain

Extract from a study by Hugh Smythe, MD, University of Toronto

Pains coming from the neck are frequent. However, most of them are misdiagnosed as the symptoms are perceived somewhere else. Due to thrust and pressure forces in the lower cervical spinal column, the pain is transmitted resulting in the brain drawing false conclusion concerning the localisation of the injury. Repeated damages, especially while sleeping, delay the recovery. An effective treatment requires reliable support of the lower cervical spinal column during the entire night – every night.

Healthy sleep is essential because it is making you forget stressful days and enhancing relaxation. If you do not get the necessary recovery, the consequences are serious: tension headaches, inner restlessness and physical as well as mental loss of power. Therefore, you should act in advance. With the SISSEL Orthopedic Pillows, your sleep will be quiet and relaxed again.

Orthopedic Pillows with actively supporting polyurethane foam

These pillows with active support are made of polyurethane foam which provides a firmer corrective positioning. The standard choice for a healthy and relaxed sleep, tried and tested a million times.

Recommended for:

- preventing curvature of the spinal column (for side sleepers)
- neck/shoulder tension tension headaches

Orthopedic Pillows with pressure relieving visco-elastic foam

Pillows made of pressure relieving visco-elastic foam absorb pressure and transfer it downwards to the interior. The foam adjusts slowly to any shape and the pillows are recommended for use in cases of health problems with pressure sensitive muscles.

Recommended for:

- acute problems with neck and back muscles
- pressure sensitive muscles
- a specific support for neck, back and shoulder problems

The material responds only slightly to energy applied to it, clearly demonstrating the pressure relieving effect of the visco-elastic foam.

SISSEL[®] Soft

Visco-elastic orthopedic pillow - for gentle sleep and soft support

- \cdot Combines the advantages of the millionfold proven classic SISSEL shape with the benefits of visco-elastic foam
- $\boldsymbol{\cdot}$ The increased isolated pressure distribution together with slightly reduced support or correction intensity makes it the ideal pillow for sensitive neck patients
- Due to its delayed elasticity effect, the pillow slowly adjusts to any shape
- No matter how head and shoulders turn at night, your spine is always softly supported
- Washable by hand

MADE IN

Gentle support pillows with visco-elastic foam

The right choice especially for sensitive users: On the gentle support pillows, head and neck rest literally weightless. They perfectly adapt and provide a soft but stable base with slightly less correction intensity than the SISSEL Orthopedic Pillows. Vertebrae and muscles can sufficiently relax and regenerate, blood circulation remains unobstructed. For a refreshed start in the new day.
