# SISSEL® Worldwide – a Passion for Healthcare

# and Wellness Products

## It all started with a neck pillow ...

The anatomically shaped SISSEL neck pillow was originally created in 1986 and quickly attracted the interest of professionals in therapy, nursing, and rehabilitation. Clinical studies also showed that the pillow had a positive effect on vertebrae and intervertebral discs. To this day, this anatomical, effective shape has stood the test of time and has since formed the basis of our corporate philosophy 'The natural way'. The unique shape of the original neck pillow is still reflected in the SISSEL logo today. Under the visionary leadership of the two Managing Directors, Jens and Lars Friebel, the SISSEL portfolio has expanded into a diverse, health-oriented product range with the following product areas:

### Healthy Moving

Keeping fit means staying in motion. Our products in the Healthy Moving category support an active lifestyle – especially the well-known SPINEFITTER by SISSEL.

### Healthy Sitting

Nowadays, we spend most of our day sitting – which is associated with a host of problems and discomforts. With our Healthy Sitting products, we offer effective solutions for better posture and well-being – like the SISSEL SITFIT.

### Well-Being

Treatment with heat, cold, massage – or simply relaxation. Well-being is our passion.

### Healthy Sleeping

Healthy sleep is the basis for well-being in everyday life. We have a variety of products that are suitable for promoting a restful night's sleep – including our original neck pillow.

Many of our innovations have since become classics. Innovations like the SPINEFITTER by SISSEL are currently attracting a lot of attention in the health and fitness industry worldwide. Thanks to our international partners, SISSEL is now available in over 70 countries.

### Our customers

Healthcare professionals all around the world love to work with our product range. Physiotherapists, doctors, trainers, and coaches rely on the quality and performance of 'Made by SISSEL' in their daily work. We therefore offer customised solutions for every field of application.

### SISSEL – proven quality since 1986

The SISSEL brand stands for exceptional quality and customer satisfaction. Every product in our health range is selected and manufactured to the highest quality standards.

Continuous innovation in terms of product development, production processes and technologies, material selection as well as a focus on sustainability and social responsibility are cornerstones of our company.

- Production mainly in Europe (especially in Sweden and Germany)
- Quality management system certified according to DIN EN ISO 13485:2021

Jens and Lars Friebel form the dynamic and future-oriented management of SISSEL GmbH.

## SISSEL – The natural way

Our ambition is to support the health of customers in a natural way. SISSEL offers a diverse range of high-quality products that strengthen health and well-being.

## Sustainability

Sustainability and climate protection are at the top of our agenda. By converting our packaging materials and gradually replacing our packaging with climate-friendly natural cardboard, we are taking an important step in the right direction.

## 5 years SISSEL guarantee

You can rely on SISSEL quality. That's why we give a 5-year guarantee on the shape stability of all orthopaedic SISSEL neck pillows, SISSEL Soft Curve, SISSEL Buchi Soft, SISSEL Medi Support, SISSEL Sit Special 2 in 1, SISSEL Sit Ring and SISSEL Back.

## SISSEL Healthcare Circle

For more health and quality of life.

## At SISSEL, we place the highest value on sustainability

Our new product packaging is a milestone in terms of resource conservation. The new design is characterised by clarity with Scandinavian flair and a focus on the essentials.

- Climate-neutral natural cardboard (CO<sub>2</sub> neutral)
- Reduced use of colours (use of only one imprint colour)
- Packaging from responsible sources (FSC certification)
- No outer carton required (the packaging is suitable for direct shipping)
- Stylised application illustration on the front

# SISSEL ACADEMY

Education & Inspiration

The SISSEL ACADEMY was founded a decade ago and stands for first-class international fitness and rehabilitation educational programmes led by a global community of experienced Educators.

As Head of SISSEL ACADEMY, Nina Metternich devotes her time to establishing and developing the academy on an international level. Thanks to her many years of experience in therapy practice and further training, Nina Metternich can draw on in-depth knowledge from the fields of physiotherapy, osteopathy, and Pilates. This enables her to ensure that the trainers are educated at the highest level.

The ACADEMY's mission is to support the high-quality training of future Educators and to create exciting and purposeful new workshops for the fitness and health industry of tomorrow. The SISSEL ACADEMY offers high quality workshops in a stimulating and professional environment. The SISSEL ACADEMY workshops permit attendees to dive deeper into the anatomical correlations and core principles of the selected SISSEL product and includes exercise programmes to support individual and group training and rehabilitation. The courses contain a strong focus on practice-based knowledge, thus allowing specialists to directly implement their newly gained knowledge from the workshop in their personal training or therapy practice.

Each workshop includes a detailed workbook that can be used as a manual for professionals in their daily work. After successfully completing the workshop professionals will receive a SISSEL ACADEMY Certificate.

Deepen your skill set and get inspired by our dedicated workshop formats centred around the SPINEFITTER by SISSEL and brand new SISSEL product developments. Become part of our growing community of highly educated trainers and specialists.

**We look forward to welcoming you to the SISSEL ACADEMY.**

# SISSEL ACADEMY

Education & Inspiration

Explore the dedicated SISSEL ACADEMY workshops

The SISSEL ACADEMY stands for first-class international fitness and rehabilitation educational programmes run by a global network of experienced Educators. Based on the medical studies that are currently being conducted and the experience we have gained, new workshop formats will be released in 2025.

### Worldwide Workshops

The SISSEL ACADEMY Workshops offered around the globe are facilitated locally by trainers and physiotherapists who possess both international experience and high qualifications. Our educators are eager to invite participants from their own countries to these workshops, where they will share extensive insights. Participants who successfully complete the workshops will be granted a Certificate from the SISSEL ACADEMY.

## Professional workshop: Functional training of the myofascial chains

### Exercises with the SISSEL OCTOCORE

This 6-hour workshop 'Certified Professional Instructor' is designed for physiotherapists, medical practitioners, and trainers. It focuses on the training of functional muscle chains and addressing myofascial pathways.

The workshop covers a variety of training that enables you to address the whole body with every exercise and compensate for deficits. The innovative approach enables functional training that offers your participants new training stimuli.

## Professional workshop: Back in Balance

### Comprehensive back training – exercises with the SPINEFITTER by SISSEL

This 4-hour workshop 'Certified Professional Instructor' is designed specifically for physiotherapists, medical practitioners, and trainers.

In this workshop, we will show you the exercises for the relevant indications, explain them in their overall context, and present exercise programmes. The workshop also covers anatomical principles, pathologies, and possible solutions, as well as instructions for your patients or participants.

## Video-Workshop: SISSEL EPIFLOW

Learn about the versatile applications of EPIFLOW tape in this practical workshop developed by experienced therapists. This innovative technique has proven to be particularly effective in the treatment of scar tissue, lymphatic congestion and the mechanical relief of body regions. In this video workshop, you will learn how the targeted application of EPIFLOW tape can activate the body's self-healing powers and reduce pain. Not only will you learn about various pathologies and their causal relationships, but you will also develop individual solutions. You will gain valuable insights into the handling and application of taping techniques and will be able to apply them immediately in your therapeutic practice. This video workshop offers you the opportunity to expand your knowledge and deepen your practical skills in the field of modern therapeutic approaches.

# Healthy Moving

Here you will find all your equipment for the gym, at home, or for your physiotherapy practice. Whether you're looking for a new piece of fitness equipment to give your workout a boost or you need high-quality products for Yoga, balance, fitness, fascia training, or Pilates.

# SPINEFITTER® by SISSEL® System

Effectively helps relieve pain in the back, neck, and shoulder areas

An international study was carried out, investigating to which extent a specially designed SPINEFITTER training programme increases the mobility of the thoracic spine, the cervical spine, and the shoulder joints. Additionally, it was determined to which extent it reduces tension and pain in the shoulder-neck area. The results of the study showed significant improvements in the researched areas.

Read more about the Study of Effects in PT April 2022 or online on [spinefitter.com](http://spinefitter.com)

# An Innovation by SISSEL®

An innovative, modular system for maximum application possibilities

## Versatile and impactful training

The SPINEFITTER by SISSEL System was developed by an interdisciplinary team of physiotherapists, osteopaths, and Pilates trainers. Numerous exercises from the fields of Pilates and Yoga can be combined and supplemented with the SPINEFITTER by SISSEL. Twelve exercise videos available online show the versatility and potential of regular training with the SPINEFITTER. The SPINEFITTER loosens muscular tension, mobilises joints, and strengthens deep muscles. Thanks to targeted exercises, the SPINEFITTER helps to relieve pain effectively in the back, neck, and shoulder areas\*.

The SPINEFITTER is made of PU integral foam and thanks to its unique shape, consisting of a 28 double-row ball structure, the SPINEFITTER by SISSEL enables comprehensive back training. The modular design of the system makes it easy to attach various add-ons and thanks to its excellent connection options, this effective training tool becomes a valuable treatment and relaxation aid. Versatile exercise options allow to train safely and effectively in the physiotherapy practice, studio, and at home.

Discover the SPINEFITTER System and learn why this multi-tool has quickly become a professional asset in the physiotherapy practices and self-treatment at home.

\*You can download the study abstract via [spinefitter.com](http://spinefitter.com)

## SPINEFITTER by SISSEL Trigger Tool

The attachable module offers a simple way to autonomously release trigger points and hardenings along the spine most precisely, and, thus, contributing to pain relief.

Tip: Can also be combined with the SPINEFITTER Mini.

## SPINEFITTER by SISSEL Multi Extension Kit

Expands the range of exercises and is perfect for people taller than 180 cm. Consists of the SPINEFITTER by SISSEL Mini and a Connector. The simple click system ensures a correct alignment of the Multi Extension Kit.

SPINEFITTER by SISSEL  
Multi Extension Kit:  
Mini with Connector

## SPINEFITTER by SISSEL Linum & Linum Pro

The perfectly fitting SPINEFITTER cover with natural linseed filling can be used for heat application on the SPINEFITTER and comes in two versions: for use at home or for professional application.

BACK IN BALANCE

# SPINEFITTER® by SISSEL®

### The innovation for a healthy back

Thanks to its unique design the SPINEFITTER by SISSEL enables comprehensive back training. The paired ball structure enables the spinous processes to sink in, which, even in a simple supine position, achieves a positive effect on the muscular tissue adjacent to the spinal column. The small vertebral joints can be opened and, thus, one's mobility can be improved. The SPINEFITTER is an intuitive training device and can be used for exercises in the area of spinal gymnastics, Pilates, and Yoga. Intuitive handling and a quickly noticeable effect make the SPINEFITTER an ideal piece of equipment for regular training in the Pilates or fitness studio, in therapy, or at home.

- Innovative training device with 28 interconnected balls
- Intense, deep-impact pressure across the entire muscular and fascial tissue along the spine
- Improves joint mobility, supports a more upright posture, and increases athletic performance
- Ideal for proprioceptive and balance training
- Strengthens deep muscular tissue
- Available in four colours: anthracite, green, blue, purple red
- Incl. SPINEFITTER Carry Strap for comfortable transport on the back

# SPINEFITTER

BACK IN BALANCE  
PINK HERO EDITION

## SPINEFITTER® by SISSEL® Pink Hero Edition

### Together in the fight against breast cancer

Breast cancer patients in particular often enjoy working with the SPINEFITTER to treat illness-related issues such as mobility restrictions. This positive feedback has encouraged us to launch a limited edition of 10,008 SPINEFITTER PINK HERO EDITION devices. Part of the proceeds from this special edition SPINEFITTER PINK HERO EDITION will go to breast cancer support organisations.

The training device, which is identical to the original in form and function, is produced in a special pink colour. The colour pink is internationally recognised as a symbol of solidarity in the fight against breast cancer, particularly through the Pink Ribbon campaign and Pinktober (Breast Cancer Awareness Month in October). The aim is to raise public awareness of the disease and promote research and support for those affected.

- Restoring shoulder mobility
- Stretching the front body chain
- Stimulates lymphatic return, which is important for the healing process
- Can have a positive effect on pain reduction
- Body awareness is trained
- Mental health is supported

### Included: The SPINEFITTER Sleeve

Breast cancer patients who have just undergone treatment are often more sensitive to touch and pressure stimuli. The cover made of soft terry cloth material reduces the feeling of pressure when using the SPINEFITTER, thus effectively facilitating the exercises.

Item	Description

# SPINEFITTER® by SISSEL® Trigger Tool

### Attachable module for expanding the SPINEFITTER by SISSEL System

It allows targeted, punctual pressure to be applied to trigger points, hardenings, and tensions. Consequently, the module offers a simple way to autonomously release trigger points and hardenings along the spine most precisely and, thus, contribute to pain relief. The shape of the Trigger Tool ensures symmetrical, constant pressure with the surface area of a therapeutic thumb. This allows pain points to be specifically released, blood circulation to be increased and the muscles to work evenly again.

- Pain reduction of trigger points
- Shape ensures a symmetrical, constant pressure
- Individual placement
- Optimum degree of hardness\*
- Vary and regulate the intensity of the pressure using your own body weight

Thanks to the simple click system, the SPINEFITTER by SISSEL Trigger Tool can be effortlessly connected to the SPINEFITTER and SPINEFITTER Mini.

Item	Description

# SPINEFITTER® by SISSEL® Linum & Linum Pro

The custom-fit SPINEFITTER cover with natural linseed filling can be used for heat application on the SPINEFITTER. The Linum/Linum Pro provides natural warmth along the entire spine and is ideal for relaxation, for loosening up the muscles before or after training, or for relieving pressure on the paravertebral muscles when training with the SPINEFITTER. Using the Linum/Linum Pro increases blood circulation along the spine and thus relieves pain.

- For heat application
- Ideal for relaxation or loosening up the muscles
- Filling: natural linseed filling
- Can be combined with the SPINEFITTER by SISSEL and Extension Kit

### SPINEFITTER by SISSEL Linum Pro

- Specially developed for use in physiotherapy practices, Pilates and fitness studios – thanks to the wipeable and disinfected surface

The hook-and-loop fasteners enable the simple insertion of the SPINEFITTER by SISSEL and the optional Extension Kit

SPINEFITTER not included

Item	Description

\* The shape and hardness of the Trigger Tool have been designed in such a way that the trigger points are targeted effectively yet as gently as possible.

# SPINEFITTER® by SISSEL® Multi Extension Kit

NEW

Expand the SPINEFITTER by SISSEL with two additional pairs of balls and the ideal connecting piece to achieve a greater variety of exercises. Set new stimuli and support specific areas of the body to optimise your self-treatment even more precisely.

- Extends the regular SPINEFITTER by SISSEL by 12 cm (2 pairs of balls)
- Contains: 1 x SPINEFITTER by SISSEL Mini and 1 x Connector
- Expands the range of exercises
- Perfect for people taller than 180 cm
- Simple click system ensures correct alignment of the Extension Kit
- Enables precise self-treatment of certain parts of the body

### SPINEFITTER by SISSEL Mini

- Extra small and light – perfect for traveling, in the office, or on the go
- Supports segmental spine mobilisation exercises
- Perfect for fascia release of individual areas
- Suitable for balance exercises and for strengthening of deep muscle structures
- Also available individually, without connector, incl. SPINEFITTER carrying strap
- Can be combined with the SPINEFITTER by SISSEL Trigger Tool

# SPINEFITTER® by SISSEL® Accessories

## SPINEFITTER® by SISSEL® Backpack

- The backpack for transporting a SPINEFITTER incl. a mounted SPINEFITTER Linum/Linum Pro
- Backpack made of 100% cotton
- Colour: anthrazit

## SPINEFITTER® by SISSEL® Drinking Bottle

An ideal training companion – this stainless steel drinking bottle keeps your drink at the desired temperature for a long time.

- Double-layered structure, food grade quality, dishwasher safe
- Capacity: 500 ml
- Lasered SPINEFITTER logo
- Material: stainless steel, silicone, PP
- Dimensions: approx. 23 x 6.7 cm

## SPINEFITTER® by SISSEL® Coach Bag

- Matching carrying bag for 10 SPINEFITTER by SISSEL
- Enables easy transport of the entire training equipment
- Dimensions: approx. 95 x 44 x 30 cm (when filled)
- Also available as a set incl. 10 SPINEFITTER by SISSEL (see page 14)
- Coach Bag made of 100% cotton

## SPINEFITTER® by SISSEL® Towel

SPINEFITTER by SISSEL Towel reduces the pressure of the SPINEFITTER on the musculature along the spinal column, thus enabling a gentler workout.

- 100% cotton
- Practical training companion in the fitness studio – thanks to integrated flap the Towel is easy to attach to the training bench
- Can be combined with the SPINEFITTER by SISSEL in multiple ways (e.g. as a head rest or as a pressure-minimising support)

Folded into a packet the Towel can be used as a comfortable headrest on the SPINEFITTER.

Item	Description
162.311	SPINEFITTER by SISSEL Backpack, anthrazit
162.312.10	SPINEFITTER by SISSEL Coach Bag, anthrazit
600.001	SPINEFITTER by SISSEL Drinking Bottle

## SPINEFITTER® by SISSEL® Gym Mat Plus

Slip-resistant, hard-wearing and antibacterial. Offers optimum support for your training.

- Dimensions: approx. 180 x 60 x 1 cm
- Material: NBR

## SPINEFITTER® by SISSEL® Display

Metal frame with suspension and threading set for professional SPINEFITTER customer presentation.

- Dimensions (L x W x H): approx. 25 x 25 x 100 cm
- Weight: approx. 3.5 kg (without SPINEFITTER)
- Material display: steel, lacquered
- Material of accessory pack: acrylic glass, polyethylene
- Permissible load capacity of display: 5 kg
- SPINEFITTER not included

# SPINEFITTER® by SISSEL® Junior

NEW

**The training companion for children and young people**

The SPINEFITTER Junior is aimed directly at the individual physiological needs of children (from the age of 4) and adolescents (up to approx. 60 kg). The innovative training tool for use in therapy and sport was developed together with physiotherapists and addresses typical challenges such as poor posture, motor development disorders and sensory integration problems. The SPINEFITTER Junior provides targeted support for improving core strength and can have a lasting positive effect on posture and body awareness. The child-friendly design and carefully selected, soft and tear-resistant material make the SPINEFITTER Junior a safe and durable training companion.

- Addresses the muscular, sensory and coordination challenges of children and young people
- The perfect companion to support and encourage children and young people in physiotherapy and sport
- Ideally suited for balance and coordination exercises or sensorimotor training
- Material testing in accordance with EN 71-3:2019+A1:2021 (Safety of toys – Part 3: Migration of certain elements)

approx. 72 x 9,5 x 4,5 cm

# SISSEL® OCTOCORE®

## A groundbreaking, highly versatile training device

The guided, supported movement sequences in multiple dimensions restore the natural interplay between fascia, muscles, tendons, and ligaments. The SISSEL OCTOCORE can support the treatment of postural dysfunctions and evasive movements. The integrated loops allow for extensive variation of functional training. In addition, it can be used as a support for Pilates and Yoga and is ideal to take along on trips. The SISSEL OCTOCORE offers individual adjustment possibilities and enables a powerful and multidimensional training – from rehabilitation to competitive sports.

- X-shaped, elastic loop band for holistic and multi-dimensional training
- Washable at 30 °C

# Pilates Matwork

Discover the perfect training equipment to boost your Pilates workout

## Pilates – Body & Mind Training

The secret of the method is its holistic approach with multiple positive effects on the body and mind: Pilates improves flexibility, strength, endurance, and mental balance. Pilates matwork is the most well-known facet of Pilates training. Joseph Pilates (1883-1967), the founder of the legendary Pilates method, developed countless gentle yet very effective exercises, which can be practiced on a mat. In addition, depending on the level of difficulty desired, small props such as balls or rollers can be used to modify the

exercises. Pilates matwork can easily be practiced at home. In addition, many gyms and physiotherapy practices have integrated the training method and offer Pilates matwork as personal training or group classes.

**'In 10 sessions you'll feel the difference, in 20 sessions you'll see a difference, and in 30 sessions you'll have a whole new body.'**  
Joseph Pilates

## SISSEL® Pilates Circle

### Great variety of exercises for core and leg strength

- Resistance training ring
- Embedded fiberglass ring with padding on both sides
- Diversifies and intensifies many pilates exercises

orange

A man with glasses and a beard, wearing a black t-shirt, is sitting on a modern office chair at a white desk. He is smiling and looking towards the right while typing on a laptop. The desk has a small potted plant on it. The background is a light-colored wall with horizontal lines. On the left side of the image, there are three white, rounded rectangular shapes stacked vertically.

# Healthy Sitting

Active, dynamic sitting relieves the upper body and strengthens the back muscles. Find the right support for your everyday sitting – in the office, in the car, or at home. For comfortable, upright, healthy sitting anywhere.

# SISSEL® SITFIT Plus

## Active sitting with 2 in 1 function

- Perfect combination of sitting wedge and air filled sitting pad
- Ergonomically enhanced shape provides an optimal ensemble of active sitting and outstanding sitting comfort
- Active and dynamic sitting relieves the upper body and works back muscles without exercising
- Enhances an upright posture
- Also suitable to exercise musculature of the back and pelvic floor
- With pump for individual pressure regulation
- Handles weights up to 138 kg

**Round side in the front:**

- active and dynamic sitting
- suitable for short sitting intervals and exercises

**Thigh rest in the front:**

- stabilized sitting due to thigh rest
- suitable for long sitting intervals

# SISSEL® Vinotherm

## Natural heating pad – tri-sectional. For specific treatment of neck, shoulder, back and kidney region

- 100% grape seed filling – no further filling material added
- Pleasant scent when heated
- Tri-sectional shape for convenient usage and perfect fit
- Easy and fast heating in microwave or oven

**Advantages of grape seed filling**  
Grape seeds are naturally fine and fit snugly and lightly to the body. They contain grape seed oil which stores heat for a long time and releases it as a dry warmth which penetrates deep into the body. Use: To relax tense muscles, warm up muscles before massage or for cold-related discomfort.

Item	Description
150.120	SISSEL Vinotherm, tri-sectional

approx. 35 x 19 cm

Cover: 100% cotton  
Filling: 100% grape seed

dark green

# SISSEL® Hydrotemp

## For deep-penetrating moist heat application

- Perfect for back, neck and shoulder pain, muscle aches, arthritis and tensions
- Draws moisture from the air and releases it as clean, deep-penetrating moist heat when microwaved, additional moistening is not necessary
- Perfect for therapy and home use or wherever deeply penetrating heat is desired
- Delivers therapeutic warmth for up to 30 minutes
- Easy to use, simply microwave and apply

Underneath a pleasant, skinfriendly cover special microbeads store pure moisture and release it when microwaved.

 blue

# SISSEL® Desktop Mobil

**Convenient and easy to use**

- Safely position on every regular table or treatment table
- Headrest continuously adjustable to individual head and upper body posture
- Successful treatment of clients with limited mobility without re-positioning
- Use at a table for simple pressure relief
- Opening in headrest prevents pressure on nose and eyes
- Incl. carry bag

Item	Description
301.000	SISSEL Desktop Mobil, blue, incl. carry bag - as long as stock lasts

**Inversion for back problems**

A full or partial inversion stretches the back naturally, enabling the spine and weight-bearing joints to relax and recuperate. The stretching is determined by the body's own weight and is therefore automatically customized.

# SISSEL® Hang Up

**The inversion table for home and professional use**

- Increasing stress on musculature, joints and the spinal column caused by physical activities, like sports, excessive workouts, bending, lifting, long sitting or standing lead to compression and rotation pressure and are often the reason for complaints
- The reversed strain during exercises with the inversion table automatically creates a relief
- Eases tensions, contributing to a sustainable pain relief
- Enhances blood circulation
- Can also be used for athletic workouts, such as sit-ups
- Fast set up, space-saving storage
- The compact inversion table
- Suitable for body heights of approx. 1.40 m up to 1.98 m
- Maximum height approx. 2.05 m to 2.09 m (with maximum body height adjustment)
- Max. body weight: approx. 110 kg

Item	Description
302.001	SISSEL Hang Up, black - as long as stock lasts

A photograph of an elderly woman with short, wavy white hair lying on her side in a bed. She is wearing a teal long-sleeved shirt and is smiling gently at the camera. Her head is resting on a white, curved neck pillow. The bed has a patterned white and gold blanket. In the background, there is a window with soft light and a framed picture on the wall. A dark blue text box is overlaid on the right side of the image.

# Healthy Sleeping

The unique taper of all SISSEL neck pillows guarantees that the shoulders are perfectly positioned even when lying on your side, thus relieving pressure on the vertebrae and intervertebral discs. Form, quality, and design that have stood the test of time – for over 35 years.

# SISSEL® Orthopaedic Pillows

The shape, quality and design, tried and tested for over 35 years

All SISSEL Orthopaedic Pillows provide specific support for the lower cervical spine. The whole shoulder and neck area is supported. The pillow's unique tapering between the shoulder and spine fills the space between them and gently moves the spine into an anatomically correct position. The slight stretching feeling in the neck and spine can initially feel unusual as the body needs a little time (2 to 14 nights) to re-adjust to a natural healthy sleep and the become used to lying on an original, anatomically shaped SISSEL Orthopaedic Pillow.

The SISSEL Classic and Classic Plus are made of polyurethane foam which has a high support factor. The SISSEL Soft, Soft Plus, Soft Deluxe and Soft Bambini are made of visco-elastic foam which is much softer. All the pillows are hand washable. More benefits can be found in the detailed product descriptions.

The unique tapering in all SISSEL Orthopaedic Pillows guarantees that the shoulder is positioned so that the spine and the intervertebral discs are supported

A conventional pillow does not provide enough support for the neck and cervical vertebrae.

The SISSEL Orthopaedic Pillow provides perfect support for the neck, no matter how you lie.

Scientific background:  
neck problems and transferred neck pain

Extract from a study<sup>1</sup> by Hugh Smythe, MD, University of Toronto

Pains coming from the neck are frequent. However, most of them are misdiagnosed as the symptoms are perceived somewhere else. Due to thrust and pressure forces in the lower cervical spinal column, the pain is transmitted resulting in the brain drawing false conclusions concerning the localisation of the injury. Repeated damages, especially while sleeping, delay the recovery. An effective treatment requires reliable support of the lower cervical spinal column during the entire night – every night.

Healthy sleep is essential because it makes you forget stressful days and enhances relaxation. If you do not get the necessary recovery, the consequences are serious: tension headaches, inner restlessness, and physical as well as mental loss of power. Therefore, you should act in advance. With the SISSEL Orthopaedic Pillows, your sleep will be quiet and relaxed again.

<sup>1</sup> Smythe, Hugh (1992): Neck Problems and Pain Referred from the Neck, Toronto 1992, [https://sisself.com/downloads/study\\_neck\\_problems-pain\\_referred.pdf](https://sisself.com/downloads/study_neck_problems-pain_referred.pdf)

### Orthopaedic Pillows with actively supporting polyurethane foam

These pillows with active support are made of polyurethane foam which provides a firmer corrective positioning. The standard choice for a healthy and relaxed sleep, tried and tested a million times.

**Recommended for:**

- preventing curvature of the spinal column (for side sleepers)
- neck/shoulder tension
- tension headaches

The metal ball demonstrates how the firm polyurethane foam supports and cushions.

## SISSEL® Classic

 Cover: 75% cotton/25% polyester  
Filling: polyurethane foam

 ecru

### Orthopaedic Pillows with pressure relieving visco-elastic foam

Pillows made of pressure relieving visco-elastic foam absorb pressure and transfer it downwards to the interior. The foam adjusts slowly to any shape and the pillows are recommended for use in cases of health problems with pressure sensitive muscles.

**Recommended for:**

- acute problems with neck and back muscles
- pressure sensitive muscles
- a specific support for neck, back and shoulder problems

The material responds only slightly to energy applied to it, clearly demonstrating the pressure relieving effect of the visco-elastic foam.

## SISSEL® Soft Plus

**Soft neck pillow for optimal adjustment**

- For more product information, see SISSEL Soft
- Adjustable in height by adding or removing the Vario Pad
- Washable by hand
- Cover washable at 40 °C

Filling: visco-elastic foam

white

## SISSEL® Soft

**Visco-elastic orthopaedic pillow – for gentle sleep and soft support**

- Combines the advantages of the millionfold proven classic SISSEL shape with the benefits of visco-elastic foam
- The increased isolated pressure distribution together with slightly reduced support or correction intensity makes it the ideal pillow for sensitive neck patients
- Due to its delayed elasticity effect, the pillow slowly adjusts to any shape
- No matter how head and shoulders turn at night, your spine is always softly supported
- Washable by hand
- Cover washable at 40 °C

Item	Description
110.011	SISSEL Soft, size L, incl. pillow cover ecru
110.020	SISSEL Soft, size M, incl. pillow cover ecru

Filling: visco-elastic foam

ecru

## Orthopaedic pillows for children with visco-elastic foam

### Give your child a peaceful and restful night's sleep

Our SISSEL orthopaedic neck pillow is the perfect choice for a restful, deep sleep for your child. This ergonomically and orthopaedically designed pillow provides the optimal support your child needs.

# SISSEL® Soft Bambini

### Bambini version of the proven SISSEL Orthopaedic Pillow Soft

- For children four years and up
- Supports a correct neck position
- Washable by hand
- Cover washable at 40 °C

Item	Description
110.007	SISSEL Soft Bambini, incl. colourful pillow cover „Animal“
110.008.01	Extra pillow cover „Forest“

approx. 37 x 25 x 9 cm

Cover: 100% cotton  
Filling: visco-elastic foam

## Gentle support pillows with visco-elastic foam

The right choice especially for sensitive users: On the gentle support pillows, head and neck rest literally weightless. They perfectly adapt and provide a soft but stable base with slightly less correction intensity than the SISSEL Orthopaedic Pillows. Vertebrae and muscles can sufficiently relax and regenerate, blood circulation remains unobstructed. For a refreshed start in the new day.

# SISSEL® Soft Curve

### Gentle support pillow

- Pleasantly soft and reliable neck support in one for relief of the vertebrae and muscles
- Perfectly contours to the natural shape of the cervical spine
- High-quality visco-elastic special foam molded into one piece
- Durable and shape-retaining
- Washable by hand
- Cover washable at 40 °C

## Pillows with natural filling

Experience healthy and comfortable sleep with our traditional pillows. Depending on your needs, we offer various natural filling materials.

## SISSEL® Palea

### Spelt pillow – a present of nature

- Perfectly adjusts to the shape of head and neck
- Maintains the ideal line of the cervical spinal column
- Moisture and heat regulating
- Breathable, relieving
- Not washable

**Advantages of spelt**  
Spelt husks regulate moisture, retain body warmth and release it naturally. The pillow adjusts itself to every head and neck and provides a pleasant and stable support.

Item	Description

## SISSEL® Panicore

### Millet pillow – natural support for your neck vertebrae

- Precise adjustment to the shape of your head and neck and provides best possible support for your neck vertebrae
- Temperature and moisture regulating
- Relaxing, gently massaging
- Noise and dust reduced

**Advantages of millet**  
Millet is fine and soft and because it adjusts to your body it is very pleasant to use. Millet pillows are particularly suitable for those who prefer not to have the soft and natural rustle of spelt husks.

Item	Description

approx. 17 x 20 cm, 10 cm at the smallest part

Cover: 75% cotton / 25% polyester  
Filling: polyurethane foam

ecru

# SISSEL® Comfort

## Optimal positioning for all ages

- Ideal aid for positioning and care of the elderly
- Perfect for daily relaxation and support of babies and adults
- Use for nursing – takes the strain off arms and shoulders
- During or immediately after pregnancy individual body parts (especially abdominal wall and perineum) can be specifically relaxed while resting in a supine or lateral position

## Different filler materials available:

- Our polystyrene pillow – with micro beads, pleasantly contour to your body, tested for harmful substances, machine washable up to 60 °C, with zipper for refilling
- Our polypropylene pillow – washable up to 95 °C, with zipper for refilling, no loss of volume due to multiple shock resistance of the slightly larger beads

Cover incl. strap\* – perfectly suitable for forming a nest and positioning the baby

NEW Cover
